|Simplify I.T.

Advanced Hospitality Technologies Inc. (ADVHTech) was founded on the principle of mastering our craft as technology experts in the hospitality industry. Serving Hotels, Management Companies and Property Owners, our goal is to be seen as a partner able to continually bring real value to every stage of the business instead of being another vendor performing labor at a cost.

Over the three decades supporting hotels and helping manage technology projects we have been able to be a part of experiencing the changes in the role of technology in the industry. Technology has gone from being independent amenities to becoming a core part influencing hotel operations, management and guest experience today that require expertise, central strategic planning, and proactive management.

Our value comes from the unique experiences, knowledge, and relationships gained by partnering as integrators with every brand, technology solution and third party vendors through all types of projects and daily situations.

There are many important roles of managing hotels that require complete dedication & attention. We hope for your utmost trust in us to take care of your hotel technology.

A person in a dark suit and red tie is shown from the chest up, reaching out with their right hand towards a glowing digital network overlay. The overlay consists of white nodes connected by thin lines, with a bright light source behind the hand. The background is a blurred office setting. A blue decorative shape is in the top right corner, and a blue diagonal bar is on the left side of the text area.

Mission

Our mission is to energize hospitality businesses with cutting-edge technology applications and professional management services to assure superior service delivery at hotels. We ensure success by:

- Providing the highest quality hospitality technology integrations, management & support services
- Securing hospitality business processes with leading compliance & security tools
- Simplifying business with cost-effective I.T. processes

Advanced Hospitality Technologies - History

Our story began in a developing industry that saw technology as added baggage. The risk of operating was high, there were a handful of prospect clients, and success was not guaranteed.

Three upcoming entrepreneurs, however, were determined to break through and synergize hospitality business with technology solutions. **Advanced Hospitality Technologies Inc.** (ADVHTech) was born.

ADVHTech Inc. & its founders have since focused their efforts to transform hospitality business with premium technology solutions, technology management, technical support, and technology risk assessment services.

Over the last three decades, Advanced Hospitality Technologies Inc. has achieved great milestones from delivering world class hotel new builds, renovations, top-tier technology risk assessments, world-class technical assistance, and intuitive technology consultancy.

Today, ADVHTech Inc. prides itself for its resolute partnerships and robust relations with some of the biggest hospitality technology & I.T. suppliers across the world. We have had the honor of being contracted for Aloft, Four Seasons, Wyndham, in addition to managing countless stand alone resorts & hotels for technology management across the USA.

The relentless work of our founding members laid the groundwork for our core values and built the establishment that has come to be known as - Advanced Hospitality Technologies Incorporated.

Core Values

Teamwork

At Advanced Hospitality Technologies Inc., we are not an organization, we are a family where comradeship is a winning virtue.

Respect

We highly value our dedicated team, develop them, and reward them since they are the building block of our success.

Dedication

We commit ourselves to develop lasting relationships and assure the success of our clients with undeterred service delivery, every single day.

Embrace Change

At Advanced Hospitality Technologies, we teach our engineers, project managers, support personnel, and marketing staff to promote innovation & progress.

Excellence

We persevere everyday, to deliver excellence in all our services & solutions. We learn from experiences everyday, and improve our services to be no less than 'outstanding'.
